## KITTITAS COUNTY PUBLIC HOSPITAL DISTRICT No. 1

BOARD OF COMMISSIONERS' REGULAR MEETING KVH Conference Room A & B November 30, 2017

BOARD MEMBERS PRESENT: Matt Altman, Liahna Armstrong, Bob Davis, Rich Elliott, Erica Libenow

KVH STAFF PRESENT: Julie Petersen, Libby Allgood, Carrie Barr, Mandee Olsen, Amy Diaz, Carrie Youngblood, Rhonda Holden, Vicky Machorro, Michele Wurl

MEDICAL STAFF PRESENT: Dr. Timothy O'Brien, Dr. Don Solberg

 At 5:00 p.m., President Liahna Armstrong called the regular meeting to order. Board member Bob Davis was present by telephone. The Oath of Office was given to Rich Elliott, newly elected Board of Commissioner.

## 2. Approval of Agenda:

President Armstrong requested that a new item be added under New Business on the agenda regarding the CEO Evaluation. **ACTION:** On motion of Erica Libenow and second of Rich Elliott, the Board members unanimously approved the agenda as revised.

## 3. Consent Agenda:

**ACTION:** On motion of Erica Libenow and second of Matt Altman, the Board members unanimously approved the Consent Agenda.

## 4. Public Comment/Announcements:

None.

## 5. Presentations:

Mandee Olsen gave a PowerPoint presentation regarding the KVH Business Plan process stating that the final plan will be presented to the Board for its approval at the January 25, 2018, Board meeting. The Board members were presented information regarding the business plan in the areas of access, financial sustainability, partnerships and collaboration, and community engagement.

### 6. Reports and Dashboards:

The Board members reviewed the QI dashboards and summary. Mandee Olsen reported that currently 94% of KVH employees have received the flu immunization.

The Board members reviewed the CEO report with Julie Petersen. Julie introduced Joe Westlake, Interim Director for the Rehab Vision Physical Therapy Department. Jack Schwartz updated the Board members regarding the progress of implementation of the Cerner/One Source system. He noted that a new Cerner Project Director, Cody Beavers, was recently hired. Julie Petersen presented the results of the recent employee survey noting that overall the rating and comments were improved as compared to the last two surveys. Board members commented that they were encouraged by the improved ratings by employees and stated that the employee comments are always helpful. President Armstrong noted

that the employees were overall pleased that the Lean program has been softened in scope. Julie presented the 2018-2020 Strategic Plan that includes the new Mission and Vision statements as well as new Core Values. She presented information on the KVH Business plan that will implement the strategic plan over the next 36 months once it is approved by the Board of Commissioners. Julie reported that the Cle Elum Urgent Care clinic was in the process of moving to its new location in Cle Elum and will be in operation in early January. The new KVH Pharmacy will be located in the Family Medicine-Cle Elum clinic lobby and will be open six days a week. Julie shared the Hospital District No. 2 Strategic Goals with the Board members. Julie reported that the recent meeting held with behavioral health providers in the community went very well and future collaboration is planned.

The Medical Executive Committee recommendations for appointment and reappointment of providers were referred to executive session.

The Board members reviewed the Chief Medical Officer report. Dr. Solberg noted that four new providers are in the process of being recruited and that Central Washington University has asked KVH for possible support services in its student health care clinic. He presented more information regarding the implementation of the KVH Wound Care program.

**ACTION**: On motion of Matt Altman and second of Erica Libenow, the Board members unanimously approved the KVH Wound Care Program.

Julie Petersen reported financials for October noting that there was a slight loss in income for the month but year-to-date expenses are down due to excellent management by staff.

**ACTION**: On motion of Erica Libenow and second of Matt Altman, the Board members unanimously gave the CEO authority to operate the budget for 2018 until final approval of the 2018 budget by the Board of Commissioners.

**ACTION**: On motion of Matt Altman and second of Erica Libenow, the Board members unanimously approved Resolution No. 17-19 regarding surplus property.

**ACTION**: On motion of Erica Libenow and second of Matt Altman, the Board members unanimously approved the three capital expenditure requests for the purchase of laboratory biofire molecular testing in the amount of \$49,215. internal medicine waiting area furniture in the amount of \$20,006, and Lidco non-invasive hemodynamic monitoring system in the amount of \$55,282.

The Board members reviewed the operations report with Vicky Machorro, Rhonda Holden and Carrie Barr noting that the new digital mammography has been well received by patients.

## 7. Education and Board Reports:

None.

## 8. Old Business:

## a. Approval of Board Officers for 2018:

**ACTION**: On motion of Erica Libenow and second of Matt Altman, the Board members unanimously approved the slate of Board officers for 2018 as follows: President, Matt Altman, Vice-President, Bob Davis, and Secretary, Erica Libenow.

Matt Altman and the Board members expressed appreciation to Liahna Armstrong for her service as Board President over the past two years and presented her with a mantle clock.

## b. Board Retreat:

The Board members agreed to schedule a Board Retreat on March 3, 2018, from 9:00 a.m. until 2:00 p.m. at the Yakima River Lodge. Julie Petersen stated that the Board members will be reviewing the KVH Business Plan at the retreat.

## 9. New Business:

## a. 2018 Board Committees:

President Armstrong reviewed the 2018 Board committee assignments for 2018 with the Board members indicating which committees they prefer to serve on for next year.

## b. 2018 Board Calendar

The Board members reviewed the 2018 Board Calendar and the list of future events and Board meeting presentations.

## c. Approval of KVH Compliance Program:

**ACTION**: On motion of Matt Altman and second of Erica Libenow, the Board members unanimously approved the KVH Compliance Program for 2018.

## d. Approval of KVH Code of Conduct:

**ACTION**: On motion of Rich Elliott and second of Erica Libenow, the Board members unanimously approved the KVH Code of Conduct as amended regarding staff being involved with political candidates and issues.

## e. CEO Evaluation:

President Armstrong asked that the Board members review the process for the evaluation of the CEO. Rich Elliott and Matt Altman volunteered to serve on a sub-committee to set up the process for the CEO evaluation to be completed in April, 2018.

## 10. Articles and Communication:

The Board members reviewed the various clippings and correspondence items. At 7:30 p.m., President Armstrong announced that there would be a 10 minute recess followed by a 60 minute executive session regarding personnel, real estate and health care providers' privileging. RCW 42.30.110(b)(g); RCW 70.44.061(1) She stated that Board action will follow the executive session.

At 8:40 p.m., the meeting was reconvened into open session.

**ACTION:** On motion of Erica Libenow and second of Rich Elliott, the Board members unanimously approved the reappointments for Dr. Elizabeth Wise, Dr. Margaret Kang, Dr. Daniel Hiersche, and Cassandra Gavin, ARNP, as recommended by the Medical Executive Committee.

With no further action and business, the meeting was adjourned at 8:41 p.m.

## **CONCLUSIONS:**

- Motion passed to approve the Board agenda as revised.
- 2. Motion passed to approve the Consent Agenda.
- 3. Motion passed to approve the KVH Wound Care Program.
- 4. Motion passed to give the CEO authority to operate the budget for 2018 until final approval of the 2018 budget by the Board of Commissioners.
- 5. Motion passed to approve Resolution No. 17-19 regarding surplus property.
- 6. Motion passed to approve the three capital expenditure requests for the purchase of laboratory Biofire molecular testing in the amount of \$49,215. internal medicine waiting area furniture in the amount of \$20,006, and Lidco non-invasive hemodynamic monitoring system in the amount of \$55,282.
- 7. Motion passed to approve the slate of Board officers for 2018 as follows: President, Matt Altman, Vice-President, Bob Davis, and Secretary, Erica Libenow.
- 8. Motion passed to approve the KVH Compliance Program for 2018.
- 9. Motion passed to approve the KVH Code of Conduct as amended.
- Motion passed to approve the provider reappointments as recommended by the Medical Executive Committee.

Respectfully submitted,

Franki Storlie/Bob Davis Executive Coordinator/Secretary, Board of Commissioners

#### Foundation activities

Annual Appeal (Ongoing) – Last month I indicated Annual Appeal materials we mailed out on October 23 to nearly 2000 homes in our service area. This mailing did not go out to employees, and as such you didn't receive the information. I will have packets for you at the January meeting. As of 12/19/17 we have received \$11,537. Employees are being asked to contribute through daily announcements and the intranet. As time allows, more focus will be placed on this employee campaign.

2018 Foundation Gala (April 28) – You will see continuous reminders for the April 28, 2018 Foundation Gala. We would love to see each commissioner have their own table of eight at this year's gathering. You can reserve these any time with Michele.

#### **Foundation Director Recruitment**

I officially stepped away from the roll of Foundation Director on December 10 of this year. While we undertake the recruitment process, I will continue to process donations and receipts, as well as address any urgent Foundation issues.

Respectfully submitted,

Michele Wurl

Director, Community Relations

## Kittitas Valley Healthcare Finance Committee Meeting Minutes November 28, 2017

Members Present: Bob Crowe, Paul Malinski, Julie Petersen, Libby Allgood

Staff Present: Jeff Holdeman, Kelli Goodian Delys

The meeting was called to order by Bob Crowe at 7:30am.

A motion was made to approve the Agenda as written. The motion carried.

A motion was made to approve the minutes of the October 24<sup>th</sup> Finance Committee Meeting approved as written. The motion carried.

Jeff Holdeman presented the capital request for the Lidco Non-Invasive Hemodynamic Monitoring System. A motion was made and carried to recommend this capital item to the Board of Commissioners. A surplus resolution for the equipment that this new capital item will replace was presented. KVH is looking for a purchaser, yet we may have a loss on disposition. A motion carried to recommend the surplus resolution to the Board of Commissioners.

Libby Allgood presented the October financial highlights. Deliveries and outpatient surgical volumes were below budget. It was noted that expenses have been managed well with a \$537,520 positive variance in October and \$2,891,955 positive variance year to date.

Libby reported on the 2018 budget process. The final budget will be presented for approval at the January 4<sup>th</sup>, 2018 Board of Commissioner meeting. A motion was made to recommend to the Board of Commissioners to authorize hospital operations until the 2018 Budget is approved on January 4, 2018. The motion carried.

The capital requests for the BioFire Molecular Testing and Internal Medicine waiting room furniture were reviewed. A motion carried to recommend the items to the Board of Commissioners.

Julie informed the committee that the City of Ellensburg Planning Commission meeting is November 30, and the Royal Vista property will be discussed. Julie led a discussion on possible relocations of services as space becomes available.

There being no further business the meeting was adjourned at 7:52 am.

## QUALITY IMPROVEMENT REPORT – Mandee Olsen, BSN RN CPHQ December 2017

## **Healthcare Personnel Influenza Vaccination**

Our Infection Prevention Coordinator, Julie Hiersche, RN CIC, reports that we now have influenza vaccination status documentation on 100% of our employees. Additionally, we have achieved a 96% vaccination rate, besting last year's rate, and exceeding Washington State's average of 90% and the national average of 88%. The final calculation will be made at the end of flu season in April and reported to the CDC in May.

## **Quality Improvement Dashboard Summary**

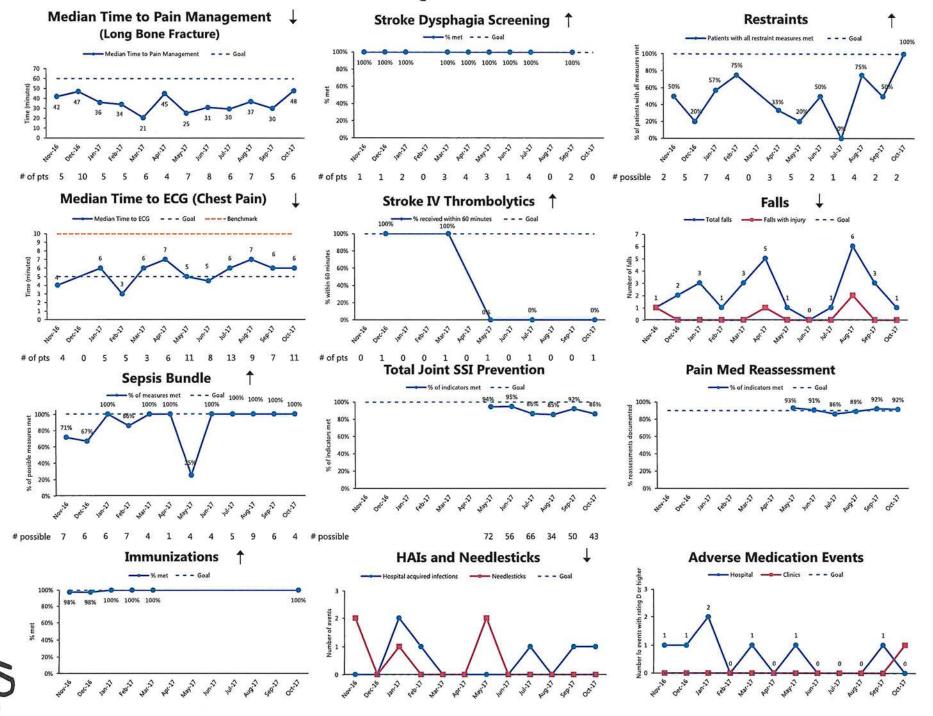

Summary of Areas Meeting Goal or Showing Improvement:

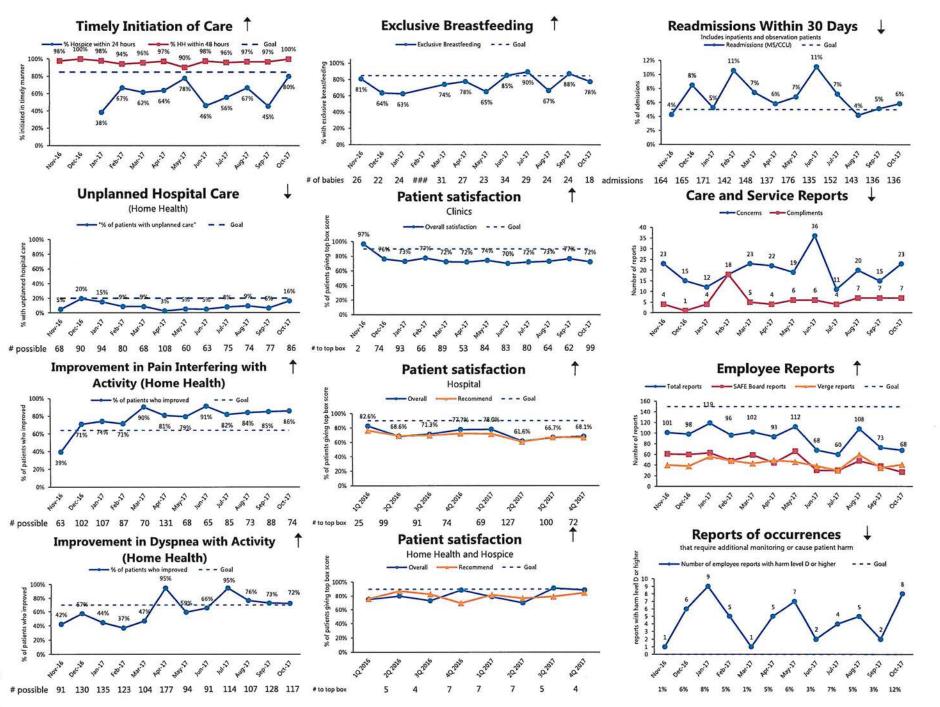

- Median Time to Pain Management (Long Bone Fracture) at goal for 12 months. This
  measure will be retired by CMS in 2018.
- Sepsis Bundle 100%.
- Patient Satisfaction Despite the fact that only ~7 out of 10 patients give us a "Top Box" score, we were at the 99<sup>th</sup> percentile nationally for Overall Rating in Cardiopulmonary Services, and the 99<sup>th</sup> percentile nationally for Overall Rating and Likelihood to Recommend in Family Birth Place.
- Restraints at 100%!
- Pain Medication Reassessment above target of 90% for last two months. We are continuing to monitor.
- 100% Timely Initiation of Care for Home Health, Hospice almost to internal benchmark but
   100% of initiation of care within 48 hours
- Improvement in Pain Interfering with Activity above goal for 11 months and Improvement in Dyspnea with Activity meeting target for last four months.

## Summary of Improvement Opportunities:

- Third Stroke IV Thrombolytics failure, although the patient did receive tPA within 66 minutes. ED Special Projects Coordinator, Cody Staub, RN, led a team through an A3 and has implemented changes to improve the processes. Look for the fruits of their labor on upcoming dashboards!
- One Surgical Site Infection (trigger finger release).
- Our Lactation Specialist, Rozsika Steele, is starting to see patients in the clinic setting, which
  we hope will influence our Exclusive Breastfeeding rate in the coming months.
- The rate of incidents with increased monitoring or harm reported increased, however, the
  overall incident reporting rate has continued to be low, somewhat inflating the rate. Review
  of these incidents suggests that they are unrelated and arbitrary, but we will continue to
  monitor for improvement opportunities or trends.

## **QI Council**

## CHIEF EXECUTIVE REPORT – Julie Petersen

## December 2017

**KVH Medical Arts Center:** Communication regarding the purchase of the KVH MAC essentially went as planned. As we anticipated, the response has cycled somewhat as impacted providers and staff process the change and consider the implications on their work environment. Overall the response has been very positive.

We have engaged Accolade Property Management to handle the day-to-day operations of the building. Accounting has reached out to the county auditor to adjust the tax status of both the MAC and Radio Hill Annex to reflect our tax exempt status.

Since the purchase our legal counsel has continued to work directly with representatives from DSHS to facilitate their August 2018 departure. This seems to be going well.

I have had an opportunity to meet with both VM Memorial and Orthopedics Northwest to discuss opportunities to collaborate as medical providers in the facility. I will be meeting with Canyon View Physical Therapy in the near future.

Radio Hill Annex: NAC Architects is working diligently to have a proposal ready for the January 4<sup>th</sup> meeting. The goal of phase one at Radio Hill will be to relocate the departments currently at 309 Mountain View as quickly and cost effectively as possible. Phase one will not include relocating our computer servers, community partners or hospital based departments. We are working to stay under the small works limit which will reduce both project time and costs. Our preliminary walk through with facilities and the architect resulted in reorienting phase one from one side of the building to the other.

**2018 Operating Budget:** Libby will be asking for your approval of the 2018 operating budget. She will be going into some detail to describe what is included and the influence that our various undertakings have on operations. Only those programs, projects and services that have received final approval from the Board are included. We have discussed a variety of projects including pharmacy and expanded therapy in Upper County, swing beds and expanded behavioral health but they have not received final approval from the Board so they are not included in the 2018 proposed operating budget. Wound Care and newly contracted providers are included. We anticipate that 2018 will be a lean year. That being said, we have a clear understanding of where we are making deliberate investments of productivity and margin to prepare KVH to be a better, more efficient healthcare delivery system into the future.

**Looking Ahead:** I want to take a moment to thank the Board for the strategic work they accomplished in 2017. The resulting strategies and values are principles that we are already learning to return to as we consider our options and opportunities. Will this program improve access? Should we build this program or would we be better served to partner? How can we leverage our infrastructure and systems to support community organizations?

One Source Update: Integrated Testing (IT) 2.0 was a very impressive event. Many of the issues that we surfaced in IT 1.0 and IT 1.5 were resolved and new issues were identified.

We have committed to additional training resources as well as additional Cerner support personnel during the week of February 12, the first week of implementation.

Additional clinical staff will be scheduled. Production based providers are reducing their normal schedules but will be "held harmless" for a period of time. Vicky is working through some scheduling issues with WSNA.

As February 12 looms near the anxiety level around training and go-live is increasing. We cannot plan for every contingency but we are responding to concerns and trying to keep anxiety at a manageable level.

## NOTIFICATION OF CREDENTIAL FILES FOR REVIEW

Date:

December 22, 2017

TO:

**Board of Commissioners** 

FROM:

Mandy Weed

Medical Staff Services

The Medical Executive Committee has reviewed the applications for appointment or reappointment for the practitioners listed below. They recommend to the Board that these practitioners be granted appointment and privileges. Please stop by Franki's office prior to the next Board meeting if you wish to review these credentials files.

PRACTITIONER	STATUS	APPT/REAPPT
Randy McGee, CRNA	Active	Reappointment
Jamin Feng, MD	Active	Reappointment
Shawn Summers, DPM	Associate	Reappointment
Daniel Baker, MD	Associate	Reappointment
Alfred Hand, MD	Associate	Reappointment
Norman Wood, DO	Ambulatory	Reappointment
Robert Yapundich, MD	Provisional/Associate	Initial Appointment
Aws Alawi, MD	Provisional/Associate	Initial Appointment
Annemarie Buadu, MD	Provisional/Associate	Initial Appointment
Hannah Bae, MD	Provisional/Associate	Initial Appointment
Sarah Heniges, PA-C	Provisional/AHP	Initial Appointment
Julia, Riel, PA-C	Provisional/AHP	Initial Appointment
Robert Meyer, DO	Provisional/Ambulatory	Initial Appointment

## CHIEF MEDICAL OFFICER – Don Solberg, MD

#### December, 2017

#### Medical Staff Services:

- Mitch Engel continues his successful recruiting. We had two provider interviews in November; a part time Dermatologist interested in employment, and an APC for Urgent Care/ED work. Offers to both are in process, and I am hopeful to report success soon. From work over the last several months, we have received a signed acceptance for a part time Certified Midwife to join Dr. Ginger Longo and the staff at Women's Health, are planning an interview with an orthopedic PA, and have welcomed Brett White, PA-C to work in FME, paired with Dr. Martin's ½ time practice.
- Lisa Potter is working with our Workplace Health staff on business development plans for this clinic, which we
  plan aggressive community promotion after January's start of Dr. Meyer. Lisa continues to spearhead our work
  at developing collaborative opportunities with CWU, and is working in collaboration with Dr. Martin to explore
  the expansion of our GNP program.
- Mandy Weed, our Medical Staff Coordinator, continues with her busy pace, currently processing 17 initial
  appointments, 22 reappointments, and 3 students. Mandy also had her second credentialing audit by an
  insurance company this month; they reviewed policies, procedures, and 18 practitioner files. Their conclusion
  was complementary; Kittitas Valley has a great credentialing process. The files and policies are organized and
  meet all required standards." Kudos to Mandy for her efforts in this vital but difficult and technical area.

#### Clinics:

- Workplace Health (Occ. Med.)
  - We are still exploring ways in which we can integrate and coordinate workplace health staff with Orthopedics and Physical Therapy services to promote access and timely interventions after Dr. Meyer arrives next month.
- Wound Care Clinic
  - Implementation team is being formed to include HR, IT, HIM, Engineering, Billing and Materials Management, in addition to MOP leadership
  - Provider recruitment has begun, with conversations/negotiations occurring with a primary candidate for an APC, and I have had verbal agreement with various consultative and medical supervisory providers.
     Training will start after April 1.
  - We have completed negotiations with our consultant, and will have a signed contract with them by the board meeting. We anticipate beginning concrete planning steps for early January, and continue to target a clinic opening date around July 1.

## Clinic Council

Chronic Pain Management services continue to be a very hot topic. We continue to plan a refresh of our current outpatient approaches in this area to ensure we are up to date with best practices, regulatory requirements, and doing all we can to reduce the impact of Opioid Use Disorder in our communities. I did present a review of the problem to Full Staff in December.

## KVHE Kititas Valley Healthcare Your Home for Health

## CHIEF FINANCIAL OFFICER REPORT- Libby Allgood, CFO

## **November Operating Results:**

- We achieved an overall operating income of \$194,833 in November. Year to date the operating income of \$1,606,866 exceeds budget by \$405,984.
- Outpatient volume was strong resulting in positive variance in outpatient revenue of \$744,056. Year to date outpatient revenue exceeds budget by \$4,929,775 and exceeds last year by \$7,142,456.
- Inpatient admissions were 31.3% below budget reflecting a negative variance of 35 admits and resulting in patient days at 22% below budget. The negative volume variance resulted in an inpatient revenue variance of \$447,995.
- Overall expenses were \$86,632 below budget in November and \$2,978,587 below budget year to date. Year to date expense through November is \$661,322 less than for same period last year.
- Contractual adjustments are significantly above budgeted rates and above last year. We
  are reviewing our payments and adjustments to determine cause of the variance.
- Other Deductions from Revenue exceed budget and last year. Included in this category
  are write-offs due to lack of medical necessity and lack of providing advance notice that
  services were not covered by Medicare. We are reviewing workflows and implementing
  processes to reduce frequency of these occurrences.
- During November we received our completed interim rate review from Medicare which
  resulted in a net payable of over \$700,000 for outpatient services and a receivable of
  \$428,000 for inpatient.
- Key Metrics:
  - o Days Cash on Hand 228.7
  - o AR Days 51.4
  - o Operating Margin YTD 2.4%

### 2018 Proposed Budget:

2018 will be a year of change and growth for KVH. Early in the year we will go live on a new electronic health record system, a change that impacts almost all daily work. We have provided

a schedule showing the projected one time impact on volumes, revenues, and costs. We will also be working on operationalizing the Radio Hill Annex, and reconfiguring the 309 Mountain View and KVH Medical Arts Center for future clinical space. In addition, there are several newer programs budgeted for the full year and some programs that are expected to start up in 2018. Due to all the changes we are planning for a modest return from operations in 2018. The proposed 2018 budget is included in the packet.

Also included in the packet is a summary of the anticipated capital requests for the next 3 years.

### **Reimbursement Resolution**

The purchase of the KVH Medical Arts building in December was funded through reserves. We are asking the Board to approve a resolution allowing the use of debt proceeds to reimburse reserves should we determine that refinancing the purchase is the best course of action.

## Kittitas Valley Healthcare 2018 Budget Summary

## Focus Areas for 2018

- Increase Access to Care
- Implementation of OneSource (Cerner) integrated electronic health record system
- Control unit costs, with emphasis on labor, as we grow volumes and services
- Expand services in upper and lower county
- Continued to assess lease vs. purchasing equipment to keep up to date with medical technology while maintaining access to capital and maximizing reimbursements

## **2018 Budget Assumptions**

#### Volume and Revenue

- The volume budget is based on the rolling 12 months actual volume through August.
   Inpatient volumes are not anticipated to have any significant changes from this baseline.
   Outpatient volumes are impacted by several expansions or new services including
   Workplace Health, Wound Care and assumed volume increase for Cle Elum Urgent Care.
   Other than these noted changes outpatient service volumes are mostly held at current levels with the anticipation of the OneSource transition to cause some disruption to volume.
- Not included in the budget are potential new programs including Cle Elum Pharmacy and expanded Cle Elum Rehabilitation services. These programs will be brought to the Board for review and approval at a later date.
- No anticipated change to current payer mix of 60% Medicare and Medicaid, 33% Commercial, 4% Self Pay, and 3% other.
- We are anticipating an overall average charge increase of 5% effective early January.

## **Expense**

- Salaries, Wages and Benefits represent 63.8% of our operating expense. The 2018 budget includes the following changes from current year:
  - WSNA per contract 2% annual increase plus steps averaging \$1.00 or less per step
  - Teamsters per contract 1.75% annual increase plus steps averaging \$0.25
  - Non-Contract 1.9% annual increase per CPI All Urban 12 months through
     August 2017 plus steps ranging from 1% to 2%.
  - o Exempt: Annual increase of 2.5% taking into consideration the CPI and longevity.
- Employee Benefits budget reflects transition to PEBB for medical coverage.
- General inflation assumptions between 2-6%.
- Rehab Vision contract reflected in purchased services, reduced salary, wages and benefits by over \$1.2 million.

- Included \$116,000 in operating lease expense for possible lease of new equipment in lieu of purchasing.
- Included additional \$45,000 in building lease expense for 309 clinic space in 4<sup>th</sup> Quarter for potential buildout and leaseback by owner.
- Rental Income and all expenses to operate the KVH Medical Arts Center are included in non-operating until space is used for KVH operations.
- Interest expense adjusted to reflect 2017 revenue bonds.

## Capital

•	Equipment Replacement	\$441,181
•	Facilities	\$603,414
•	Major Infrastructure (Radio Hill)	\$400,000
•	Information Systems	\$224,200
•	New Programs/Procedures	\$211,145
		\$1,879,940

# PUBLIC HOSPITAL DISTRICT NO. 1 KITTITAS COUNTY, WASHINGTON RESOLUTION NO. 18-01

A RESOLUTION ("Resolution") of Public Hospital District No. 1, Kittitas County, Washington, declaring its official intent to reimburse capital expenditures from proceeds of a future borrowing in connection with acquiring, renovating and equipping a medical office building to be used for District's hospital and clinic facilities.

WHEREAS, Kittitas County Public Hospital District No. 1, Kittitas County, Washington (the "District"), intends to make expenditures for the Project (identified below) from funds that are available but that are not (and are not reasonably expected to be) reserved, allocated on a long-term basis, or otherwise set aside for those expenditures, and reasonably expects to be reimbursed for those expenditures from proceeds of bonds or other obligations ("Bonds") issued to finance those expenditures; and

WHEREAS, certain federal regulations (the "federal reimbursement regulations") relating to the use of proceeds of tax exempt bonds to reimburse the issuer of the bonds for expenditures made before the issue date of the bonds require, among other things, that not later than 60 days after payment of the original expenditure the District (or any person designated by the District to do so on its behalf) declare a reasonable official intent to reimburse those expenditures from proceeds of bonds; NOW, THEREFORE,

BE IT RESOLVED BY THE COMMISSION OF PUBLIC HOSPITAL DISTRICT NO. 1, KITTITAS COUNTY, WASHINGTON, as follows:

<u>Section 1</u>. <u>Description of Project for Which Expenditures are to be Made</u>. The District intends to make (and/or, not more than 60 days before the date of this declaration, has made) expenditures, and reasonably expects to reimburse itself for those expenditures from proceeds of one or more series of Bonds, for the following project (the "**Project**"):

Acquiring, renovating and equipping improvements to a medical office building to be used for District's hospital and clinic facilities.

Section 2. Maximum Principal Amount of Obligations Expected to be Issued for the Project. The District expects that the maximum principal amount of Bonds that will be issued in one or more series to finance the Project will be \$11,500,000.

Section 3. Declaration Reasonable. The Commission has reviewed its existing and reasonably foreseeable budgetary and financial circumstances and has determined that the District reasonably expects to reimburse itself for expenditures for the Project from proceeds of bonds because the District has no funds available that already are, or are reasonably expected to be, reserved, allocated on a long-term basis, or otherwise set aside by the District for those expenditures on the Project.

Section 4. <u>Limitations on Uses of Reimbursement Amounts</u>. The District will not, within one year after the expected reimbursement, use amounts corresponding to proceeds received from bonds issued in the future to reimburse the District for previously paid expenditures for the Project in any manner that results in those amounts being treated as replacement proceeds of any tax exempt bonds, i.e., as a result of being deposited in a reserve fund, pledged fund, sinking fund or similar fund (other than a bona fide debt service fund) that is expected to be used to pay principal of or interest on tax-exempt bonds. Nor will the District use those amounts in any manner that employs an abusive arbitrage device to avoid arbitrage restrictions.

<u>Section 5</u>. <u>Date of Declaration</u>. This declaration of official intent shall be dated as of the date of adoption of this resolution.

<u>Section 6</u>. <u>Effective Date</u>. This resolution shall be in full force and effect from and after its adoption and approval.

ADOPTED and APPROVED at a special open public meeting of the Board of Commissioners, held in compliance with the requirements of the Open Public meetings act, on the 4th day of January, 2018, the following Commissioners being present and voting in favor of this Resolution.

Liahna Armstrong, President and Commissioner
Matt Altman, Vice President and Commissioner
Bob Davis, Secretary and Commissioner
Erica Libenow, Commissioner

### CERTIFICATION

- I, the undersigned, Secretary of the Board of Commissioners (the "Board") of Kittitas County Public Hospital District No. 1, Kittitas County, Washington (the "District"), hereby certify as follows:
- 1. The attached copy of Resolution No. 18-01 (the "**Resolution**") is a full, true and correct copy of a resolution duly adopted at a special meeting of the Board held at the special meeting place thereof on January 4, 2018, as that resolution appears on the minute book of the District; and the Resolution is now in full force and effect;
- 2. A quorum of the members of the Board was present throughout the meeting and a majority of those members present voted in the proper manner for the adoption of the Resolution.

IN WITNESS WHEREOF, I have hereunto set my hand this 4th day of January, 2018.

Bob Davis, Secretary

#### PATIENT CARE OPERATIONS

- Preparation for OneSource implementation has ramped up not only for the clinical areas but throughout KVH. The training plan is expected to be completed by Dec. 22 for the clinical areas. The Super-users and Subject Matter Expects and Department Directors are to be commended for their hard work and dedication to this project.
- The Urgent Care move is scheduled for January 8. Efforts are currently underway to ready the space for our patients.
- The revised process for Interdisciplinary rounding on MS/CCU has gone quite well from the perspective of Physicians, staff and our patients. We are still in the trial phase and will continue to monitor the process and foster changes if necessary.
- On Friday December 15, we were able to celebrate with 5 KVH staff that completed their nursing degrees. There was a reception held in the cafeteria in their honor. Cheryl Hoffee, ED; Jessica Hamer, MS/CCU; Jaylynn Rowbotham, SOP; Nisia Komorowski, MS/CCU and Shiloe Anderson, Family Medicine Cle Elum have graduated from the nursing program at YVCC in 2017.

Thank you, Vicky Machorro, Chief Nursing Officer

#### ANCILLARY SERVICES OPERATIONS

## Diagnostic Services-

- 3D Mammography open house was held 12/12/17.
- We continue to work with PACS issues on a daily basis. 3D Mammography is the only modality that has been migrated to the new PACS system. We will delay moving other modalities until all issues are resolved, which we anticipate being after the Cerner go –live.
- We will begin installing new x-ray equipment in room 2. As soon as this is complete, we will upgrade x-ray room 1. Both units have had issues with downtime and difficulty obtaining parts for repair.
- The new MRI will require an electrical upgrade and approval by the DOH.

## · Cle Elum Physical Therapy-

We have signed a contract with Craig Pigeon from Northwest Physical Therapy to provide managerial oversight for the Cle Elum PT Clinic and are continuing in negotiations to purchase that practice. We have submitted a functional program to DOH and anticipate scheduling a walk-through of the building with the DOH before we complete our application package and drawings.

## Cardiopulmonary-

On October 31 Teamsters Local 760 filed a petition to represent KVH Respiratory Therapists. PERC is confirming the staff signatures on the pledge cards and we will be working with PERC and our labor attorney on the next steps in the representation process.

### Home Health & Hospice-

Hospice Friends has experienced repeated turnover in their Chaplaincy program since September. We contract with them to provide Hospice volunteers, a Chaplain and for assistance with our bereavement program. Dr. Martin and I met with their Executive Committee on 12/12/17 to determine how to best move forward and have determined that it is in our best interest to bring the Chaplain and bereavement program to KVH Hospice. We will continue to contract with Hospice Friends for the Volunteer program.

## 340B Program-

We have received over \$100,000 in back payments from Safeway. An incorrect data file was the reason for the delay.

## Cle Elum Pharmacy-

KDF Architect is continuing to move ahead with plans for the Cle Elum Pharmacy. A cost estimate is included in your packet.

## Cle Elum Urgent Care-

Movers are scheduled for January 8. We will have two exam rooms set up and ready for patients at the new location so there should not be a disruption in services.

## Swedish Specialty Services in HD2-

We have had an initial phone call with Swedish to determine which specialties Swedish may provide in HD2, whether in person or by telemedicine or a mix of both. The community, providers and staff have given feedback on desired specialty services and we are in the process of evaluating data on specialty referrals. Swedish will begin renting the current Urgent Care space on February 1, 2018.

Thank you, Rhonda Holden, Chief Ancillary Officer

### CLINIC OPERATIONS

• Family Medicine - Ellensburg: Dr. Merrill-Steskal presented information last month at a Practice Improvement conference in Kentucky about immunizations. Immunizations are rated number one on the list of the most effective preventable services. If you spend more than a few minutes in a room with Dr. Merrill-Steskal, he will tell you the importance of double checking immunization records in the chart and having alerts available in the electronic medical record. At FME, he implemented a project that involved the patient's vaccine status as a vital sign by creating a visual cue in the electronic chart near other vital signs. In addition, new standard work for medical assistants was implemented that promoted checking if vaccines were needed and also

administering the needed vaccines by way of standing orders. The number of vaccines administered increased dramatically during the year of the project for all patient ages, but especially for adult vaccines (pneumonia, flu and tetanus). The project has been a true team effort, with both medical assistants and providers working together to increase vaccination rates. **Family Medicine – Cle Elum**: Sarah Heniges, PA has joined her team at Family Medicine Cle Elum. We are glad to have her aboard!

Women's Health: Dr. Ginger Longo has been on a journey to Bawa, Cameroon – West
Africa. She was there with five others from KVH to facilitate the opening of the clinic and
begin caring for villagers. She was there for ten days and we are happy to have her back
safely.

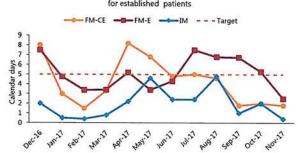

Thank you, Carrie Barr, Chief of Clinic Operations

## AMENDMENT TO SERVICES AGREEMENT

This Amendment to the Services Agreement dated October 30, 2002, by and between Kittitas County Public Hospital District No. 1 ("District 1") and Kittitas County Public Hospital District No. 2 ("District 2") is entered into this 18<sup>th</sup> day of December 2017.

Now, therefore, the parties agree to amend their Agreement as follows:

- 1.2 <u>Urgent Care Services.</u> The clinic shall provide urgent care services to meet the needs of the community.
- 2.2 <u>Financial Support of the Clinic's Operations.</u> District 1, Kittitas Valley Healthcare, will pay the construction costs for a pharmacy located in the clinical space leased from District 2. District 2 will subsidize the operating losses of the KVH Cle Elum Pharmacy, per the following schedule:

Year 1: \$194,000 Year 2: \$118,000

Year 3: Not to exceed \$50,000

District 1, Kittitas Valley Healthcare, will expand therapy services in Cle Elum. District 2 will share in initial construction costs not to exceed \$90,000. District 2 will subsidize annual operating losses in an amount not to exceed \$60,000.

6. <u>Terms and Termination.</u> This Agreement shall become effective as of January 15, 2018, (the "Effective Date"), and shall continue in effect until December 31, 2020 (the "Term"), unless terminated earlier in accordance with this Section 6.

IN WITNESS WHEREOF, the parties have amended their Agreement as of the day and year first above written.

### **KVH Seeks Applicants to Board of Commissioners**

The Board of Commissioners of Kittitas County Public Hospital District No. 1 is seeking applicants for Position #4. Hospital District No. 1 operates Kittitas Valley Healthcare.

Interested persons should submit a Letter of Interest by January 22, 2018, indicating interest in the position, relevant background information and assets they can bring to the Board of Commissioners. Interviews will be conducted during the weeks of January 29 and February 5. The individual who is appointed will be sworn in at the February 22 Board meeting or at a special Board meeting in February.

The individual who is appointed will hold the position through the November 2019 general election. That individual would have the option to run for the position in the November 2019 general election for a six-year term. Applicants must be registered voters residing in Hospital District No. 1.

Letters of interest should be sent electronically or by hard copy to: Board of Commissioners, Attn: Franki Storlie, Executive Coordinator, Kittitas Valley Healthcare, 603 South Chestnut St., Ellensburg, WA 98926; fstorlie@kvhealthcare.org. For additional information, contact Franki Storlie: 509-962-7302 or visit www.kvhealthcare.org.

January 8, 2018

Dear KVH Employees ~

We would like to bring you up-to-date on the steps underway for appointing a new member to the KVH Board of Commissioners.

The Board has developed the following tentative schedule for making the appointment –

KVH Press Release describing process

Deadline for receipt of Letters of Interest

Candidate interviews

Swearing in and Board Meeting

January 8 January 22

Weeks of Jan. 29 and Feb. 5 Thursday, Feb. 22 or Special Board Meeting in February

Applicants must be registered voters residing in Hospital District No. 1 and must submit a Letter of Interest by January 22 indicating interest in the position, relevant background information and assets that they can bring to the Board of Commissioners. The Board will interview selected applicants.

The individual who is appointed to the position will complete the balance of the current term of Position #4 through the November 2019 general election. That individual would have the option to run for the position in the November 2019 general election for a full six-year term.

Information about the process is outlined on the KVH website: www.kvhealthcare.org/commissioners. We will provide further information as the process evolves.

If you know of someone who would be a good candidate, please let them know about this vacant position.

Regards,

Matt Altman, President Board of Commissioners Kittitas County Public Hospital District No. 1

### Survey shows KVH employee opinions improve

BY JOANNA MARKELL

Employee opinions about Kittitas Valley Healthcare have improved in many areas over the past three years, according to a recently completed

survey.
KVII CEO Julie Petersen shared KVII CEO Julie Petersen shared the results with the Kittitas County Hospital District I board on Thurs-day, and has been reviewing the re-sults with staff at employee forums. She said the 2017 results im-proved for each question and car-cepty compared to surveys in 2015 and 2016. KVH has more than 550 complexes.

and 2016. NYT has more man 350 employees.

One of the biggest improvements was the answer to the statement:

"Employees are treated with respect" which improved 14 points. There was a nine-point improvement on "I

have confidence in the managemen of KVH" and a six-point improve-ment in "Overall I like my job," she

The highest score, in the 82nd

The highest score, in the \$2nd percentile, was "1 am proud to tell people that I work at KVII."

Areas where the scores were lower involved whether employees had a clear idea of KVII's direction. The organization has been updating its strategite plan and mission this year. Petersen said there's also a destire for more transparency and participation in decision making, and people are feeling the stress of change and increased patient volumes. "Those are areas we need to strengthen," Petersen said.

Board President Liahna Armstrong said she's reviewed employee

strong said she's reviewed employee comments in the surveys over the past few years, and noticed this year there were far fewer comments

about KVH's use of a Lean-type process improvement system. Over the years, the use of Lean

drew concerns from some employ-ees, who objected to the way it was implemented under former CEO Paul Nurick, KVH still has been using Lean methods to improve opera-

ing Lean methods to improve opera-tions under Petersen.
"One common theme is people were grateful to have the Lean push softened," Armstrong sald, "it's dis-appeared as a concern and last year that was the biggest itemized issue." She attributed the difference to "a change in leadership and the new sense of energy we have around projects."

projects." Board member Erica Libenow

said she was encouraged many of the employee concerns could be readily addressed by the strategic plan. She thanked staff for participating in the survey and filling out comments.

Board member Matthew Altman said the survey results were good news and there's more work to be done.

done.

In other action:

The board unanimously approved a new wound care clinic, which is still being developed. The clinic would be set up in the hospital's surgical outpatient areas five afternoons a week.

The test model is to start small and allow it to grow? said Chief Medical Officer Dr. Don Solberg.

New board member Rich Elliott was sworn in after winning No-

### SELAH MAY SEVERTIES WITH YAKIMA TRANSIT

BY DONALD W. MEYERS

SELAH — Come spring, Selah bus riders should have a more direct route from the city to points in Yakima. City Council members voted unanimously Tues-day night to open negotia-tions with Yakima-based Modstar Transputation

tions with Yakims-based Medstar Transportation to provide free scheduled bus service to Yakima and possibly Union Gap, as well as dial-a-ride service for residents with disabilities. Medstar and People for People provided proposals for a Selah transit system. Yakima Transit has serviced Selah since June 2005, said City Administrator Don Wayman.

tor Don Wayman.
"We felt we needed more "We felt we needed more targeted service for our city," Wayman said. "Yakima Transit is big, but we were looking for something more flexible." While 'Yakima Transit picks up at various places in Selah, such as the Selah Civic Center, the Zitkle Fruit warehouse and the

### KVH to renovate Royal Vista building

Planning Commission gives OK on Thursday

BY SHANAI BEMIS

The Ellensburg Planning Com-mission on Thursday approved a conditional use permit for Kittitas Valley Healthcare to renovate the interior of a second control of the control

Valley Healthcare to renovate the interior of an unoccupied building on Radio Road.

This building previously housed the Royal Vista Nursing and Rehabilitation center, which closed its doors in 2015 after the company doors in 2015 after the company determined the building wasn't meeting the needs of patients and staff. Since then it has sat empty. KYH purchased the building earlier this year for \$352,000.

The neighborhood surrounding the building, and the property itself, is zoned as residential low, which required KYH to submit a conditional use permit request to the city

to begin renovations.

Michael O'Malley, the architect for the project, spoke at the hearing and said while the use of the building has not been completely determined, it would serve primarily as offices for KVH staff and would provide storage.

An application to the city said services might include home, health and hospice; nutrition counseling, health education, outpatient behavior health counseling; records storage; and possible relocation of the hospital's data center.

The existing parking will remain. The lot has 48 spaces.

Commissioner George Bottcher questioned whether the building would be used at night and whether this would have an impact on the surrounding homes.

O'Malley said that there would

this would have an impact on the surrounding homes.
O'Malley said that there would be no inpattent beds and minimal overnight use of the building. It would primarily be active during standard business hours only.
"There may be a data center that

National Research Res

would need to be manned overnight, but that would only be one or two staff," he said.

In a report submitted by Shannon Johnson, senior planner in the city's

Community Development office, it was determined the renovations and proposed use of the building would not negatively affect the surrounding neighborhood.

### **NEWS DIGEST**

#### Burn ban takes effect Monday in Kittitas County

A burn ban will take effect in Kittitas County at 9 a.m. Monday, according to a news release from the Washington

release from the Washington Department of Ecology. A forecast of cooling tem-peratures and stagnant air is prompting the ban. All outdoor burning and the use of uncertified slowes and fireplaces will be prohib-ited in Chelan, Douglas, Kit-lius and Okongera counties. titles and Okanogan counties due to poor air quality in the region. Restrictions on burn-ing will continue through 9 a.m. Wednesday, when conditions will be reassessed. The Washington Depart-

### LIGHTED PARADE BRIGHTENS WINTER NIGHT IN KITTITAS

BY ERIC ROSANE For the Daily Record

Bright lights and jolly senti-ment were evident in Kittitas Saturday evening as people grabbed strollers, blankets, coats and extra layers for the town's annual Christmas festivities.

The event featured a free nighttime parade, hot cocoa, food, a lighted parade and a visit from Mr. and Mrs. Santa

food, a lighted parade and a visit from Mr. and Mrs. Santa Claus. Volunteers at the New Hife Assembly on Main Street began setting up a round 2 p.m. They brought out foldable tables, set up chopped firewood and portable fire pits, and made sure the marshmallows and hot occoa were ready. Last year, the church fed more than 700 people. "It's a fun and friendly way to give back to this community and to be a part of this event." Pastor Gary Bye said. Businesses stayed open longer than their regular hours. The Kittitas Coffee Barn on Second and Main stayed open past its susual 8 a.m. to 1 p.m. hours, and handed out free 8 oz cupy of hot cocca to all visitors. It was Mike Mata's first time at Christmas in Kittitas. He recently moved from southern Yakima Gounty to Kittitias. Although he still works really enjoying all the events and charm that Kittitas has to

### KVH looks at opening pharmacy in Cle Elum

One of several changes on Alpha Way

BY JOANNA MARKELL

Kititias Valley Healthcare is working on plans to open an outpatient pharmacy at its family medicine clinic in Cle Elum.
Two private pharmacies have closed over the past year in Cle Elum, and KVH CEO Julie Petersen said patients, providers and community members approached the organization about providing services.

the organization about providing services.

After searching for retail space in Cle Blum, KVH is now looking at using its existing clinic building on Alpha Way near McDonalds. KVH would use 400 square feet of the lobbly off a pharmacy, and add a drive-through window.

"The lobbly will be less elegant, but (the waiting area) will have the same number of seats. It will look more like a waiting room." Petersen told the Hospital District 1 board on Thursday.

KVH is looking at providing services six days a week. Petersen said she's working with staff to address concerns about an increase in the number of people using the building.

in the number of people to the building.

"This is a balance between trying to solve a problem quickly and having a perfect solution," she said.

The project involves Hospital District 2. Which oversees health care in Upper Kittitas County, and owns the Alpha Way huilding.

### OTHER CHANGES

A new pharmacy won't he the only change on Alpha Way. The change comes as Swedish and KVH's Urgent Care in Cle

and RVFIS Organi Care in Cle Elum are trading places. Swed-ish has moved out of its space on First Street on Cle Elum to make way for KVH Urgent Care, which is currently in the Alpha Way building.

building. KVH took over the First Street building on Friday, and plans to open the Urgent Care there in early January, with no interrup-tion in services.

### IN OUR VIEW

### Charting local health care course

#### BY DAILY RECORD EDITORIAL BOARD

People may have different views on the fate and future of health care, health care funding, access and cost to health insurance, etc., but there is no doubt this is a period of uncertainty in all those sectors.

Obviously, a lot of attention is paid to how and if these issues are being resolved on the federal level, but in the resolved on the tederal level, but in the midst of all that political posturing and yammering, health care is still being pro-vided. Health care providers, whether public sector hospitals or private sector facilities, are providing care and attempt-ing to plan for the future. Locally and within our region, health care providers are proving forward, mak-

care providers are moving forward, mak-ing decisions and undertaking projects. Yakima has experienced some of the

national trends with the purchase of hospitals. It may be hard to think of a hospital as part of an industry, but it is subject to the same types of purchases, mergers and consolidations seen in

other sectors of the economy. Kittitas Valley Healthcare is part of a public hospital district, which does not rule out a purchase or merger, but means it would not sneak up on people. At the moment there is no indication that type of action is in KVH's future.

But the hospital district and KVH remain pretty active. In Ellensburg, previous plans to expand the current hospital campus have at least slowed. The district purchased the former Royal Vista nursing home on Radio Hill and recently received a conditional use permit to remodel it for a variety of uses including offices for KVH staff, home, health and hospice, health education and record storage.

The acquisition of the old Royal Vista building was a good way to address some immediate space needs without embarking on the larger project of ex-panding the KVH campus.

But the larger facility needs remain to e resolved. Over the past 10 to 15 years KVH has added previously private phy-sician practices. Those facility needs are different. But if you developed a set of ideas based on the Affordable Care Act improving access to health care and thereby increasing demand for providers, how do you adjust that to the uncertainty that comes with possible

There's also a move toward care teams and growing use physician assistants and nurse practitioners. What does that mean in terms of what is needed for a facility?

It is understandable that health facili-ties and providers across the nation are hesitating to sink money into structures without a firm understanding of what the future holds.

But uncertainty is not paralysis. One positive development for health care in Ellensburg in the past year or so was the opening of the private sector Kittitas Urgent Care Center on Mountain View Avenue. That is nice option to have for a variety of medical needs.

In the Upper County, Kittitas County Hospital District 2, in connection with KCHD 1, has reached an agreement with Swedish that has the potential to improve both service and health care

KCHD 2 will move its urgent care center to the better location in the old Swedter to the better location in the old Swed-ish building on First Street and Swedish will move to the KCHD 2 building on Alpha Way and offer people specialty care and telehealth services. KVH also plans to add a pharmacy inside the Alpha Way building. Hopefully 2018 brings with it more clarify to betthe care in the nation.

clarity to health care in the nation, but regardless, our local providers are attempting to meet the community's health care needs.

### Do not create right to discriminate

This week, the U.S. Supreme Court will hear the case of David Mullins and Charlic Craig, a couple turned away by Masterpice Cakeshop in Lakewood, Colo., when they tried to buy a wedding cake.

The two weren they couldn't afford the cake. They were turned away because they couldn't afford the cake.

They were turned away

because they are gay. The Colorado courts and the Colorado The Colorado courts and the Colorado Caval Rights Commission found that the bakery's actions violated the state's law barring discrimination. In the high court, Material columnist the bakery argues that the lower courts findings violate its rights to both religious freedom and free speech.

The watched this argument tangle a lot of good people in knots. But it shouldnit.

The bakery's argument is among the most radical to come from the supported court in recent years. When you scratch below the surface, the case poors the following question: Is there a constitutional right to discriminate?

constitutional right to discrimi-nate? The bakery argues that there is, and that the Constitution should exempt it from state laws requiring that businesses not discriminate when erving their customers. In an Orwellian twist, the Department of Justice — the

very body charged with enforcing the country's anti-discrimination laws — agreed with the bakery in a friend-of-live-count brief. Specifically, the bakery argues that it should be allowed to refuse service to people if doing sor runs contrary to the religious beliefs of its owners. That thould they us pause.

should give us pause. In the 1960s, Piggie Park, a chain of barbecue restaurants in South Carolina, said that its owner's freedom of

owners freedom of religion would be violated if it were held respon-sible for disregarding the Civil Rights Act when it refused to serve black

patrons.
In 1983, Goldsboro Christian
Schools of Goldsboro, N.C.,
argued it had a religious right
to refuse black students. In the
same case, Bob Jones University of Greenville, S.C., argued
'lead' a right to droy admission it had a right to deny admission

it had a right to deny admission to students who engaged in, or advocated for, interracial dating. In 1990, Roanoke Valley Christian Schools in Virginia argued that it had a right to pay women less because their faith taught that men should be heads of house-bald.

men should be heads of house-holds.
The courts rejected all of those arguments. They understood that religious liberty does not translate into a right to discriminate. If the Supreme Court now accepts the

cake shops religion argument, the decision would have far-reaching consequences. Religious liberty could become a way out of anti-discrimination law.

The bakery is also arguing that freedom of speech protects its refusal to serve Mullins and Craig. According to its argument, the 1st Amendment protects its discriminatory conduct because the product it sells is artistic and expressive. Any business engaged in artistic expression can refuse service, they say, not just those motivated by religious beliefs. But Colorado's anti-discrimination law pertains to the refusal of service, not the artistry of cakes. It dues not tell the bakery how to design its baked goods. It does not compel the bakery how to design its baked goods. It does not empel the bakery or any other business that opens its doors to the public to make a particular product at all. It simply requires that, once a business open to the public to assert so affer a product or service, it cannot refuse public chooses to offer a prod-uct or service, it cannot refuse

uct or service, it cannot refuse to sell that product or service to a customer based on identity. Consider the question from a different angle. What if, instead of turning the couple away, the bakery posted a sign that said, "Wedding takes for heterosexu-als only." Though the Con-stitution protects speech, it does not protect this speech, because

it communicates and contains ar

it communicates and contains an act of discrimination.

In the bakery's argument, the cake is the expression, and the Constitution protects its refusal of service because the cake is expressive. Should that act of discrimination be protected sim-ply because the refused service was artistic and expressive? By

ply because the refused service was artisle and expressive? By this logic, the Constitution could protect the right of a hairdresser who refuses to cut the hair of Muslims or a hotel that worth has an interfaith wedding.

Just as speech by a business open to the public is not protected when it communicates discrimination—"we don't service your kind here"— discrimination by a husiness should not be protected simply because the refusal is of a service that involves speech or expression.

expression.

If the Constitution exempts the If the Constitution exempts the bakery from the law's bar on dis-crimination — either because the discrimination is motivated by religion or because it is attached to an expressive service — it would mean that the Constitution protects discrimination.

Today, there is no constitu-tional right to discriminate. Let's hope the Supreme Court keeps it that way.

### Elliott resigns from hospital board

BY MICHAEL GALLAGHER AND JOANNA MARKELL

Good afternoon Monday December 11, 2017 75 cents

Rich Elliott's term on the Kit-titas County Hospital District Board of Commissioners proved to be short. After election relurns were cer-tified on Nov. 28, Elliott accepted

the position and was sworn in as commissioner. Three days later, he submitted a letter of resigna-tion on Dec. 1 to the hospital

He had resigned a month early from his position on the Ellens-burg City Council to take the

hospital board seat.

"I struggled with this and I apologize for the confusion," Ellitot said. "The hospital board just wasn't a good fit."

The five-member, publicly elected hospital board oversees operations of Kittitus Valley Ileakheare.

Elliout filed for the Commissioner 4 seat to run against Bob

sioner 4 seat to run against Bob Crowe, who was appointed to fill a vacancy on the board. During the summer, Elliott withdrew from the race but did so too late for his name to be taken off the

At the time, he said he would not "participate in a campaign

that focuses on anything other than the issues and the candidate's qualifications for office." Elliott said he would not accept the seat if elected and did not campaign, but ended up winning the race by 30 votes. When he won the election, many people contacted him, asking him to serve, he said.

Crowe did not respond to requests for cumment by email and phone. He declined to comment as ballots were counted last month.

#### HOSPITAL BOARD

KVH CEO Julie Petersen said on Friday said Elliott was warmly welcomed by the four board

members. He sat down with members. He sat down with outgoing board President Liahna Armstrong and incoming President Matthew Altman on Dec. 1. "They made it abundantly extended the didn't welcome his resignation," Peterne said. The hospital board has 90 days from the date of Elliott's resignation to an point a new board mem

tion to appoint a new board mem-ber. Petersen said the board will discuss the process when it next meets on Jan. 4.

meets on Jan. 4.
Elliott said he regrets that
through this process the focus
became more on him accepting
the seat rather than the issues facing the hospital currently and into
the future.

### raised about lawmaker's conduct BY MIKE BAKER

**New questions** 

A former legislative staff member says she complained earlier this year about the conduct of Washington state Rep. Matt Manweller after a meeting that she thought was to discuss her career ended up at a restaurant and felt more like a date. ### New Facility Plan Emerges from Hospital District's 2018-2020 Strategic Plan

Ellensburg, Wash. (December 11, 2017) – Recent strategic planning and two recent property purchases have KVH adjusting its 2016 master site facilities plan. In mid-2017, KVH purchased the 22,000 square foot former Royal Vista skilled nursing facility. More recently, the public hospital district acquired the 36,000 square foot three-story building near Super 1 and Rite Aid.

The KVH Board of Commissioners devoted much of 2017 to developing a new strategic plan for the hospital district. Access to care and community engagement surfaced as key strategic initiatives and the emerging facility plan flowed naturally from that focus on patient and community needs.

The new facility plan is about much more than bricks and mortar; it focuses on improving care processes, consolidating the electronic health record as well as identifying new space for patient services. With these purchases, KVH is able to take advantage of existing community property and to expand more quickly than building new. "Access to care cannot wait for a new building," said KVH CEO Julie Petersen. It will ultimately provide more square footage at a fraction of the cost estimated for previous plans.

"Recent provider recruitment has been so successful that we do not have adequate space for our incoming providers," said Petersen. "We have reached the point where our facilities are the limiting factor in being able to care for our community."

Occupation and expansion into the newly acquired facilities will be staggered as space becomes ready for use, and after KVH implements a new integrated electronic health record that will better consolidate patient health information.

The former Royal Vista facility, now called the KVH Radio Hill Annex, was purchased in mid-2017. This property is located in a residential neighborhood and is most appropriate for low-traffic support services. On November 30, KVH received approval from the City of Ellensburg to begin relocating services to the facility. Home health, hospice, patient billing, and other support functions that are currently located in the KVH 309 Annex at 309 E Mountain View Avenue will be the first to move to the Radio Hill Annex. KVH hopes to invite community partners to consider co-locating at the Radio Hill Annex to create a community health resource center. This would include some external partners such as Hospice Friends.

Vacating the 309 Annex will free up space that is ready to accommodate higher-traffic professional services. This is an ideal location for clinical services.

The acquisition of the three-story building near Super 1 and Rite Aid was finalized on December 11. This building will be known as the KVH Medical Arts Center. Currently, the building is almost completely occupied so no immediate changes are anticipated. In the future, KVH will move some of its existing and emerging clinical services into the building, in addition to the

current provider tenants. The Board believes that practicing in such close proximity to other area healthcare providers will foster collaboration and ultimately benefit the patients.

This is in line with the vision that Dr. Byron Haney had when he began construction of the building in 2007. "Our purpose was to retain and expand in town medical specialty care, expand Family Health Care of Ellensburg, offer KVH or DSHS services in a consolidated location and leave room for future healthcare growth. This summer KVH approached me with a desire to acquire this building for their needed expansion. Knowing our initial vision for this community had been realized, we granted KVH their request. We trust this building will bless this community for years to come." said Dr. Byron Haney, founding physician of Family Health Care of Ellensburg."

Though decisions have not been made about which services will be moved to the locations suitable for high-traffic professional services, the facilities planning work completed in 2016 will largely be translated to these new locations.

### Alabama special Senate race now in hands of voters

BIRMINGIIAM, Ala. (AP)

— Alabama voters headed to
the polls Tuesday in Alabama's
special Senate election and faced two choices: Either continue the "Trump miracle" in Washington or allow "decency" to prevail back

At the center is Roy Moore—
"Judge Moore," to his supporters,
The 70-year-old Republican was
twice ousted as state Supreme
Court chief Justice after flouting
federal law, and now he's attempting a political resurrection amid
accusations of sexual misconduct
with teenage girls when he was in
his 30s.

In Moore's path is Democrat
Doug Jones, 63, a former U.S. attorney best known for prosecuting
wo Ku Klux Klansmen who killed
four black girls in a 1963 church
bombing. At the center is Roy Moore -

bombing.

More than two dozen people stood in line in the chilly morning air early Tuesday morning

at Legion Field, a predominantly black precinct in Birmingham Birmingham, to cast their ballots in a stadium office. Blue-tinted posters of college football players and cheer-leaders lined one wall, and about 20

wall, and about 20
Doug Jones posters
were planted near the parking lot.
"I do not want to see Rey Moore
go in there. We don't need a pedophile in there," said Teresa Brown,
33, an administrative assistant
at the University of Alabama at
Birmingham who was voting at
Legion Field. "We need someone
that's going to represent the state
of Alabama, work across party
lines..." just be there for all the
people, not just a select few of the
people."

people."
Al Bright, 63, who does refrig-eration repair, voted for Moore.

"I just believe regardless of the allegations against him, I believe he is an honorable man," Bright said. Bright said he realized some necone criticize people criticize Moore because he was removed from office ecause of actions he took to try to

because of actions he took to try to block same-sex marriage in the slate. "I don't think there's anything wrong with that because I believe in that as well," he said. "I feel the same — marriage is between a man and a woman." Mary Multrie, 69, who works at a children's hospital and voted for Jones, said she was not influenced by accurations of sexual miscon-duct against Moore because she already did not like him. "I le's not a truthful man," Multre said of Moore. "He talks about God, but

you don't see God in his actions."

Alabama Secretary of State John Merrill said early Tuesday that turnout for the special election could be as high as 25 percent of registered voters.

The winner will take the seat previously held by Attorney General Jeff Sessions. Republicans hold a narrow 52-48 Senate majority. A routine election in Republicandominated Alabama wouldn't be expected to alter that balance be expected to alter that balance because Alabamians haven't sent

because Alabamians havent sent a Democrat to the upper chamber of Congress since 1992. President Donald Trump notched a 28-point win here in 2016 and remains popular in the state. But Moore's baggage leaves the outcome enough in doubt that both Trump and his Democratic predecessor, Barack Obama, have weighed in with last-minute robocalls trying to sway voters.

### Rep. Manweller placed on leave at CWU job

BY THE SEATTLE TIMES/DAILY RECORD

Central Washington University said Monday it is investigating the conduct of state Rep. Matt Manweller and has placed him on administrative leave from his job as a political science profes-

sor. CWU officials declined to dis-cuss the details of the investigation,

the investigation, except to say that it involved "allegations of inappropriate conduct." Manweller, who has taught at the university since 2003, has been investigated twice in recent years for allegations of sexually harassing students. The Seattle Times reported last week. Manweller was not disciplined after the first investigation in 2012, After the second, which concluded in 2013, he was issued a letter of reprimand and ordered to undergo training to prevent sexual harass. training to prevent sexual harass

While neither investigation de-

ment.
While neither investigation determined that the allegations were substantiated, both concluded that there was evidence to suggest he had violated the school's sexual harssment policies.

In a written statement to the Daily Record, CWU vice president of public affairs Kremiere Jackson confirmed Manweller was placed on administrative leave, "pending an investigation into allegations of inappropriate conduct."

According to the statement, the investigation will be conducted by an independent investigation who has not been identified.

No further information can be disclosed at this time, except to confirm that the investigation will be thorough, objective and fair, the statement read.

Manweller, R. Ellensburg, has denied wrongdoing at CWU, He said in a statement Monday that the university received a "handful of emails and phone calls from exstudents" in recent days and that those contacts led the university to seek another investigation.

TOP STORY

### KVH takes new direction on building plans

By JOANNA MARKELL managing editor Dec 16, 2017

**Top left:** KVH recently finalized the \$8.5 million purchase of a three-story medical office building on Jackson Avnear Super 1 and Rite Aid. **Top right:** The KVH Family Medicine building on the campus of KVH Hospital in Ellensburg, Friday. **Bottom left:** The former Royal Vista Nursing and Rehabilitation center along Radio Road in **Bottom Right:** The KVH Hospital building along Chestnut Street in Ellensburg, Friday.

Brian Myrick / Daily Record

Buying a three-story building near Rite Aid and the old Royal Vista building on Radio Hill will provide options to improve health care in the community, Kittitas Valley Healthcare officials said this week.

The purchases fit into the organization's strategic plan to improve access to health care. They also offer flexibility at a lower cost than earlier plans, CEO Julie Petersen said.

"Access is not just more physicians," she said. "It's identifying the services the community needs, it's partnerships with other providers here in the community, developing those partnerships, and inviting people from outside the community sometimes to come provide those services."

All of that work requires space, she said, and the two building purchases will provide 58,000 square feet.

Matthew Altman, president of the Hospital District 1 board, said the purchases resolve several issues.

"Financial sustainability is another key strategy and this gives us more space, sooner and at a third of the cost of building new," he said.

### **NEW MEDICAL BUILDING**

KVH finalized the \$8.5 million purchase of the medical office building on Jackson Avenue near Super 1 and Rite Aid on Monday. Constructed in 2007 by Dr. Byron Haney of Family Health Care of Ellensburg, the building was built for medical services.

"The elevator, HVAC and air handling are all designed to be a medical office building," Petersen said. "The offices will require substantial remodeling, but the core systems that are so expensive, those are built into the building."

She estimated it could cost \$3 million to remodel the space currently occupied by the Department of Social and Health Services for clinic space. The DSHS lease is up on Aug. 31.

At this point, the current tenants will stay in place and no immediate changes are planned. In the future, KVH will move some of its existing and emerging clinical services into the building.

Petersen said the hospital looks forward to working with providers already in the space like Northwest Orthopedics, Canyon View Physical Therapy, and Yakima-area providers.

The purchase was in the works for several months, and KVH did look at other space and buildings in the community, Petersen said.

Altman said purchasing the building allows KVH to build relationships with other providers and avoids having a direct competitor move into the space.

"Do we build new in the area south of the hospital, build new elsewhere or buy something? This was the best option to fit all criteria," he said. "It's a medical grade complex, and allows us to have a different footprint in the community."

### **RADIO HILL**

It was the second major building purchase this year for KVH.

KVH was the high bidder on the 22,000-square-foot former Royal Vista skilled nursing facility on Radio Road earlier this year at auction for \$372,000.

Home health, hospice, patient billing, and other support functions that are at 309 E. Mountain View Ave. will be the first to move to Radio Hill. KVH will make necessary repairs so people can move in, and then step back and look at what additional remodeling might be needed, Petersen said.

Vacating the 309 Annex will free up space for higher-traffic professional services such as clinical services, a news release said. Petersen said she'd like to look at the Radio Hill space as as community health resource center, and perhaps incorporating partners such as Hospice Friends.

40

### **CHANGE IN DIRECTION**

The acquisitions are a change in direction for KVH, which had been working on plans to build a new medical office building on the south side of its campus under previous leadership. After three new hospital board members were elected in late 2015, the board put facility planning on hold. In 2016 the board replaced former CEO Paul Nurick with Petersen, and began work on a strategic plan. The board spent the first half of 2017 finishing the plan in cooperation with staff and the community.

The plan has four major components: access, community engagement, financial sustainability and partnerships/collaboration. The access component calls on KVH to improve clinic facilities and to recruit and retain providers.

The previous master facility plan called for a new outpatient building with 40 exam rooms on the hospital campus at a rough cost estimate of \$17 million.

The plan was to fund it without taxpayer support, and it would have required tearing down several homes owned by the hospital south of the main hospital, an idea which drew neighborhood concerns.

The second phase of KVH's plan called for remodeling the hospital at its current location three to five years after the medical office building was completed. It would require voter support of a bond levy at a possible cost of \$55 million.

Some of that earlier planning involved intense sessions with staff and the community about the best way to set up medical and clinic space, and how services flow between locations. Altman said some of that work can be put to use in the new Medical Arts Building as space is set up inside.

"We hope we can use a lot of the planning that went into that," he said. "We have a shell we can use to adjust to meet our needs."

### FUNDING

Funding for the building purchases came from the hospital's reserves and \$13.5 million in tax-exempt revenue bonds issued this summer. The bond funding was designated for the building purchases and a new Cerner electronic health record system, another major capital project.

"There was never a discussion about going to the voters to do (the Medical Arts) building. Even to do the original (medical office building) we thought we'd do it with commercial debt," Petersen said. "We have an extremely strong balance sheet so it was a simple process."

Altman said the hospital district's tax rate is one of the lowest in the state, and through strong financial management KVH has been able to save up money and not go to voters. A levy for a 2000 hospital remodel and addition will be paid off at the end of 2018.

### HOMES NEAR HOSPITAL

Petersen said KVH sent letters about the building plans to residents south of the hospital and on Radio Hill to keep them informed.

KVH owns 13 homes near the hospital campus that are often used by physicians who are new to the community or for on-call housing for surgeons. The homes are a recruitment and retention tool, and have more value these days as available housing has become more limited in Ellensburg.

"We've been doing minimal maintenance on them with the idea they'd be demolished for a medical office building, so we need to step back and evaluate how we're going to maintain them and what that will look like," she said.

Altman said there were legal covenants with residents in the area that likely would have been a hurdle to development.

The new strategy "doesn't disrupt the existing neighborhood," he said.

### WHAT'S NEXT

42

Petersen said there are no plans to acquire more office space in Ellensburg. KVH's focus for the next few months is implementing the new electronic health records system, which also was outlined in earlier capital planning efforts. In some ways, the new health records system is bigger than buying the new building, Altman said.

### KVH properties in Ellensburg

- The hospital on Chestnut Street and surrounding buildings, including the Mediplex, the Family Medicine Ellensburg clinic (formerly the Valley Clinic), and a building that houses KVH Women's Health and Internal Medicine
- 13 homes between Hobert and Spokane streets south of the main hospital campus
- · Occupational/speech therapy clinic on Second Street near the library
- · Former Royal Vista Nursing and Rehab building on Radio Hill, now called the Radio Hill Annex
- · Medical office building near Super 1 and Rite Aid, to be called the KVH Medical Arts Center

The hospital also provides services at 301 Mountain View (physical therapy), 309 Mountain View (home health, hospice and patient support services), and in a workplace health clinic at 702 Mountain View.
