- Visceral Artery Aneurysm

A vascular surgeon does far more than surgery. Vascular surgeons will talk to you about how exercise, diet and medication can be the first step in regaining your health.

Leading the clinic, Dr. Michael Zammit has more than 35 years of Vascular surgery experience in addition to his clinical expertise.

"I strive to reach prompt understanding of the vascular needs of patients, reduce utilization of resources without compromising clinical assessment, while delivering the least invasive therapies."
