WHAT IS A COMMUNITY BENEFIT REPORT?

A community benefit report is an opportunity to highlight the important services our organization has provided to the community. It also contributes to operational transparency by disclosing quality metrics and financial performance for the past year.

SERVICE
TRANSPARENCY
COLLABORATION
QUALITY
RESPECT

At Kittitas Valley Healthcare (KVH), we are guided by our mission:

"We are a community-focused health system providing outstanding, personalized care to improve the lives of individuals and families."

That mission drives every decision we make, from the care delivered at the bedside to the investments we are making to strengthen healthcare access across Kittitas County.

Healthcare is foundational to the vitality of rural communities, and KVH remains committed to preserving high-quality, local care close to home. In 2026, KVH anticipates more than 108,000 outpatient clinic visits and approximately 18,000 emergency department visits, along with thousands of additional patient interactions through diagnostics, therapies, procedures, phone calls, patient portal messages, and care coordination services.

This past year marked a historic milestone for KVH with the completion of the largest expansion and remodel project in our organization's history, a nearly $31 million investment into radiology and surgical services. This transformational project brings a modernized facility, updated technology, and an enhanced patient experience to our community.

KVH also continued expanding access to care through growth in primary care, and specialty services. These investments reflect our commitment to improving access and reducing the need for patients to travel outside the county for care.

Healthcare continues to be an increasingly challenging industry, particularly for rural organizations. Even so, it remains an incredible honor to serve this mission and the community I am proud to call home. I remain deeply grateful for the dedication and compassion of our staff, providers, volunteers, and leaders who continue to make a meaningful difference in the lives of our patients and families every day.

Orthopedics at KVH

Board-certified orthopedic surgeon Dr. Anthony Longo, together with Shane Sigler, PA-C, and Derek Henderson, PA-C, helped lead the vision for the Orthopedics remodel, bringing their clinical expertise and commitment to expanding access to exceptional orthopedic care for our community.

As KVH continues to expand surgical services to meet the needs of our growing region, the completion of the Orthopedics remodel and expansion marks a significant investment in providing high-quality, specialized care close to home. The project transformed existing space into a modern orthopedic practice featuring updated clinical areas, enhanced infrastructure, and advanced technology, culminating in the successful relocation of Orthopedic Services.

Today, KVH Orthopedics offers comprehensive care, including total knee & hip joint replacement, fracture repair, arthroscopy, ACL repair, in-clinic X-ray, casting and splinting, carpal tunnel surgery, joint injections, and the ARVIS® Augmented Reality System, which enhances surgical precision and supports improved patient outcomes.

This expansion strengthens KVH's ability to provide modern, patient-centered orthopedic care and supports the long-term health and well-being of our community.

Modernizing Care

In 2025, Kittitas Valley Healthcare completed the largest expansion and renovation project in the organization's history. Nearly $31 million was invested in a 14,800-square-foot expansion and 15,465-square-foot renovation of the hospital's surgical wing, transforming radiology, surgical services, and sterile processing to better serve our growing community.

The project expanded surgical capacity with the addition of a fourth operating room, modernized the sterile processing department, and enhanced diagnostic capabilities through the installation of a new CT scanner and MRI system. Together, these improvements provide patients with greater access to advanced imaging, more efficient surgical care, and modern, patient-centered facilities close to home. These expanded services help ensure that more families can receive the care they need within their own community, surrounded by the support systems that matter most. By investing in advanced technology, specialized services, and local healthcare resources, KVH is helping create a stronger, healthier future for the entire Kittitas Valley.

As our region continues to grow, these investments reduce the need for patients to travel outside the valley for many types of care while strengthening KVH's ability to deliver exceptional, high-quality healthcare close to home.

BLUEPRINT FOR SUCCESS

Apprenticeships

KVH is investing in the future of healthcare through apprenticeship programs. Opportunities in Nursing Assistant Certified (NAC), Medical Assistant (MA), and Pharmacy Technician roles provide hands-on training and a pathway to rewarding careers serving our community.

Service Renovations

KVH continued renovating facilities to enhance patient care and support community needs. A key achievement was the completion of the Orthopedics expansion, improving access to advanced orthopedic care close to home.

More Lines of Care

We are expanding specialty care services to better meet the needs of our growing community. The addition of board certified specialists in Podiatry and Urology services will provide patients with greater access to specialized care close to home, reducing the need to travel outside the valley for treatment.

KVH Foundation

EST.1986

THE FOUNDATION KVH

A Year of Gratitude

In 2025, your generosity made a lasting difference. Because of your support, The Foundation was able to distribute more than $630,000 to Kittitas Valley Healthcare, funding essential tools, services, and programs that touch lives every day and strengthen care across our entire community.

These meaningful investments helped place a new ambulance into service for UKC Medic One in Upper County, enhance emergency and critical care, and support maternal and infant health. They also expanded access to diagnostic and laboratory services, rehabilitation and hospice care, and improved access to healthcare in our rural communities. Your compassion reached patients managing diabetes, families navigating dementia and cancer, and neighbors in need of mammograms and diagnostic ultrasounds who might otherwise have gone without care.

Each year, our community demonstrates extraordinary generosity through thoughtful gifts to The Foundation at KVH. These contributions are often made quietly, and are received with profound gratitude. Every gift is swiftly put to meaningful use, creating a lasting impact for our patients and their families.

Funding Source	Amount Raised
Contributions	$229,515.50
